

Peak Rejuvenation Date Calendar until the year 2108

Dates to practice the Emerald Tablets Exercise shown in the book: [Emerald Tablet Number XIII. The Keys of Life and Death. The Energy of Qi Gong, Microcosmic Orbit and Hands on Healing](#). On the below dates, the body will naturally not only feel stronger, but will naturally want to perform the exercise for longer periods without fatigue. The below dates are based upon.

This table lists moments the Sun reaches exactly 24°00' of each zodiac sign each month.

Each date shows:

- **~2-hour window:** the exact moment the Sun hits 24°, plus or minus one hour.
- **Within a 3-day window:** that same moment plus or minus one day. This covers the Sun at roughly 23°–25° of the sign.

Each row is a 3rd-decan moment. Peak periods are when the dates overlap [Time-Gate dates](#) and when the water signs Cancer, Scorpio and Pisces occur. If you want to learn how to Calculate Time-Gate, you can do so in [my book](#).

Interestingly, the Sun at 24° tropical is roughly the exact moment the sun enters the next constellation in the sidereal zodiac as shown in Vedic astrology.

How the counting works now: each date in the [Time-Gate](#) starts a 7-day week, made up of that date and the six days after it. A row gets **** when the first date of its 3-day window falls inside one of those Time-Gate periods.

Where the energy comes from and how it works.

The 3rd Decan as Rubedo: A Modern Hermetic Lens

In this framework, the 3rd decan of each sign (20°–29°59') is read through Rubedo, the “reddening.” Rubedo is the final stage of the alchemical Great Work, which produces the Red Stone or Red Tincture of the Philosophers. This draws on the later three-stage model of the Work (nigredo, albedo, rubedo), which lines up naturally with a sign’s three decans.

Rubedo represents culmination, mastery and integration. In alchemical lore, the Red Stone is the perfected substance: stable, incorruptible, and able to transmute what it touches. Read spiritually, it is the moment when intangible insight is fixed into something lasting and embodied.

Applied to the zodiac, planets in the 3rd decan can be read as **carrying a sign's energy** in its most "cooked" (*coctio*) and concentrated form. This contemplative reading treats the sign as a progression, with the final ten degrees as its point of ripeness.

Water Sign Emphasis

This lens gives special weight to the 3rd decans of the three water signs, where the themes of dissolution and refinement are most at home. These are the approximate Sun dates. They shift by about a day from year to year because of the leap-year cycle:

- **Pisces 3rd decan:** about March 10–20
- **Cancer 3rd decan:** about July 12–22
- **Scorpio 3rd decan:** about November 12–21

The 24° Point

Within each 3rd decan, this practice focuses on the **moment the Sun reaches exactly 24°00'**. The accompanying table lists that moment for every sign, each month from 2026 to 2108, with a ~2-hour window (± 1 hour) and a 3-day window (± 1 day). For the water signs these fall around:

- **Pisces 24°:** about March 13–15
- **Cancer 24°:** about July 15–17
- **Scorpio 24°:** about November 15–17. The next one is 16 November 2026 at 07:37–09:37 UTC, which is 5:37–7:37 pm Brisbane time.

Sun–Moon Resonance at 24°

When the Moon also sits at 24° during the Sun's window, the two lights form an exact relationship. In the same sign that is a New Moon. In different signs it is an exact aspect where the signs relate, such as a trine or opposition. This pairs the conscious drive of the Sun with the receptive, instinctive Moon in one precise moment. It is uncommon: only about 1 in 20 of the Sun's 24° windows has the Moon near 24° as well. That rarity is what makes such moments stand out in this practice.

Water Sign Themes

These themes draw on the water element and Pisces/Neptune symbolism, and apply most strongly in the water-sign windows.

- **Key themes:** heightened intuition, empathy, artistic creativity, spiritual awareness, vivid imagination. Many practitioners use these windows for meditation, energy work or Qi Gong.
- **Potential challenges:** confusion, weak boundaries, illusion, or a tendency toward escapism in the affairs of the planets involved.
